

### How to help those affected by the volcanic eruption of La Palma

At this time, and thanks to the solidarity that has come from all over the country, our island has covered the basic needs. Now, the priority is to raise funds for specific demands, such as housing. INAF expresses its solidarity with the people affected and in particular with the TNG staff. We invite participants to help through:.

# 25 ANNI del TNG

**19 - 21 Ottobre 2021**  
**La Palma**

## Tuesday October, 19

### 09:00 Registration.

Chair: *Ennio Poretti*

**10:00 - 11:30** Welcome addresses from Local and Institutional Authorities

**Rossella Spiga** - The legacy of the TNG realization.

### 11:30 Coffee break

Chair: *Adriano Ghedina*

**12:00 Cesare Barbieri** - The history of the Telescopio Nazionale Galileo from Phase-A study to the first technical light.

**12:30 Roberto Ragazzoni** - A visionary project: the technological development inspired by TNG.

### 13:00 Lunch break

Chair: *Rosario Cosentino*

**14:30 Giovanni Bonanno** - A memory.

**14:50 Flavio Fusi Pecci** - The TNG baseline instrumentation.

**15:10 Gianpietro Marchiori** - TNG and the Italian road to worldwide technologies for telescopes.

**15:30 Adriano Fontana** ® - TNG in the landscape of INAF facilities in the visible and infrared.

### 16:00 Coffee break

Chair: *Manuel González*

**16:40 Adriano Ghedina** - Focal Plane instrumentation at the TNG.

**17:00 Pietro Schipani** - Yesterday and today tracking at TNG, tomorrow SOXS at the twin NTT.

**17:20 Gloria Andreuzzi** - Outreach at the TNG.

**17:40 Marco Romoli** - Hands-on learning: Students of University of Florence observing with TNG.

**18:00 Andrea Bignamini** ® - The 25 years of TNG through the archival data.

## Wednesday October, 20

Chair: *Antonio Magazzù*

**09:30 Ernesto Oliva** - The scientific use and productivity of the TNG from 2000 to 2007.

**09:55 Emilio Molinari** - An (apparently) quiet decade: 2008 to 2017.

**10:20 Stefano Cristiani** - TNG in the Italian tradition of the surveys for radio-loud and radio-quiet quasars.

**10:40 Pamela Cambianica** - Observation of comets with the TNG telescope.

### 11:00 Coffee break

Chair: *Vania Lorenzi*

**11:30 Giusi Micela** ® - The GAPS Large Program at TNG.

**12:00 Alessandro Sozzetti** ® - The GTO Program at TNG.

**12:30 Livia Origlia** - The SPA Large Program at TNG.

### 13:00 Lunch break

Chair: *Avet Harutyunyan*

**14:30 Andrea Melandri** - Exploring the Universe with Gamma-Ray Burst Afterglows.

**14:50 Paolo D'Avanzo** - Exploring the multi-messenger universe with TNG.

**15:10 Filippo Ambrosino** - SiFAP2: looking inside fast periodic and transient phenomena at sub-microsecond time scales.

**15:30 Angelo Antonelli** ® - TNG & the Gamma ray sky of Canary Islands: scientific and technical synergies.

**15:50 Piero Benvenuti** ® - The impact of satellite constellations on astronomical observations.

### 16:10 Coffee break

Chair: *Filippo Zerbi*

**17:00 Ennio Poretti** - Observing at TNG today: perspectives for the future.

**17:30 Giovanni Pareschi** - ASTRI at Teide Observatory.

**17:50 Cesare Barbieri** - Campaigns involving Asiago telescopes and TNG: the Iqueye instrument.

**18:10 Filippo Zerbi** - Discussion and Closing Remarks.

**19:00 End of meeting**

## Thursday October, 21

**09:30 - 14:30 VISIT TO THE TNG AND THE ROQUE DE LOS MUCHACHOS OBSERVATORY**

**Hotel H10 Taburiente Playa  
Los Cancajos**  
+34 922181277
